

NEW VISION OF DUBAI WATERFRONT

Dubai is one of the fastest-growing cities in the world, striving to become a world-class destination for business and tourism. The roots of Nakheel can be traced to the mid 1990s when H.H. Sheikh Mohammed, Crown Prince of Dubai and U.A.E. Minister of Defence, set out his vision to make Dubai one of the leading tourist destinations in the world. He recognised that in addition to the region's sunny climate, one of Dubai's most attractive features was its pristine beaches, beside the clear blue waters of the Arabian Gulf.

IDEA FOR THE FUTURE

The main idea is to amplify the waterfront quality of Dubai by increasing the value of touristic offer and simultaneously solving the parking problems along the coastline. The Dubai Water Diamond project is conceived as a mobile water floating city - encompassing multilevel parking garage, exclusive retail spaces and entertainment amenities. This novel and unique project will become recognized as a new "urban jewellery box" and as such may be one of the main attractions for the upcoming Dubai 2020 Expo.

GENERAL PROGRAM SCHEME

TECHNICAL DATA

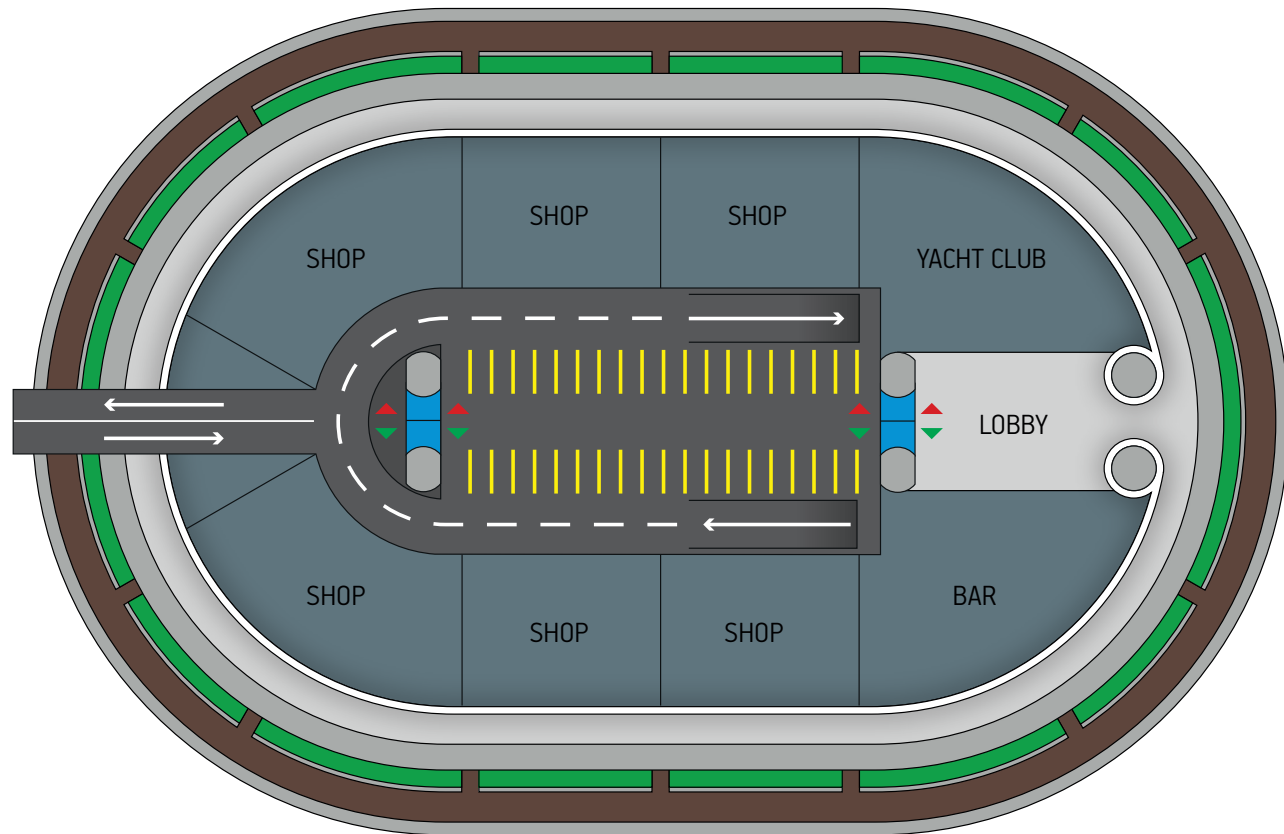

- Length - 116 m
- Width - 66 m
- Height up to the 6th deck - 20 m
- Walking path around the pontoon - 14 m
- Total deck No. - 6
- Deck surface - 6.720 m²
- Total surface - 47.040 m²
- Depth of the ground floor shopping - 5 m
- Parking places on main deck - 36
- Parking places on upper decks - 416
- Total No. of parking places - 452
- Total mass - 9.000 T

By the edge of the project, the spacious walking area increases the length of the coast by more than 300 metres.
